Human beings by Action

Shiksha Se Unnati Sudha Se Sudhar

The graphic features two overlapping circles, one yellow and one light yellow, set against a background of radiating lines in shades of yellow and white. At the bottom, there is a row of colorful, stylized leaves in blue, green, yellow, orange, red, pink, and grey. The word "MISSION" is written in bold black text inside the yellow circle, and the word "VISION" is written in bold black text inside the light yellow circle. Below each word are several lines of text describing the respective concepts.

MISSION

Fighting for inequality,
backwardness, scourge,
illiteracy, malnutrition
among the million.

VISION

Mobilising resources for striking
at backwardness among the people

Making government to recognise the
role of NGOs in eliminating the illiteracy

Securing funds from all possible sources
to remove the discrimination between
human beings of any type

Working for women empowerment
from all corners

I am delighted to share with the contributors and beneficiaries that SUDHA society which came into being in 2009 to start working for the education of poor children has now been assuming larger role to eradicate the social malaise on various fronts in the society.

As we continue to deliver our services professionally through dedicated team it is important that society resources should also be strengthened for delivering needful services to deserving. We need your motivation at every step. Therefore let us work unitedly for the unprivileged section of the society to achieve the social development goals of this millenium.

President
Gopal Krishana Bhatnagar

Chief Executive Officer
Dr. Rakesh Arya

EDUCATION AND DEVELOPMENT

Education is necessary for every child to grow in his life. Unfortunately and despite the provisions under constitution to provide free and fair education to children it can be seen that multitude of children fail to acquire meaningful education leading to their restricted growth due to which they are made scapegoat for inferior and low paid work. Society endeavours to see where is the scope to educate the students from poor families with donations from the public and take them to some good position.

NUTRITION AND GROWTH

Nutrition is a big issue in India. There are million of children and female who donot get adequate nourishment to stay healthy and fit rather they become disease prone and die very early. This is very painful when people in the cities are progressing phenomenally. SUDHA endeavors to reach out in the pockets where these people are uncovered by any scheme. To an extent the problem would be attended through CSR and UNO funds. The role of the government will also be pushed as it is envisaged.

ENVIRONMENT AND PLANTATION

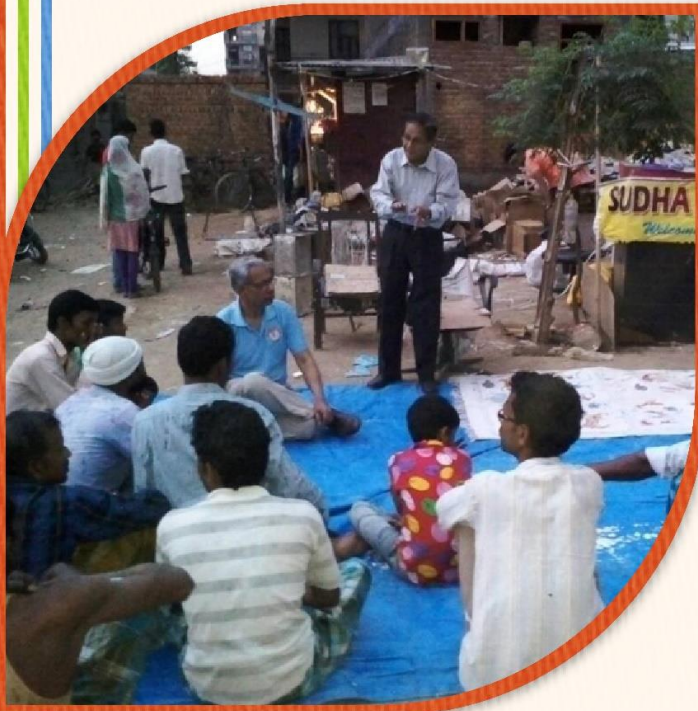

Environment plays important role in human growth and health management. The environment is easily polluted due to high use of fuel and using banned plastic material. The community based counselling to keep the environment clean is becoming extremely important. SUDHA society is taking strides and organising community based tutoring to mitigate the adverse impact of environment. They are being guided to resort to plantation and also minimise the use of non recyclable materials.

CHILD DEVELOPMENT

Directed towards Integrated Child Development, that will include: Improving nutritional and physical health of children, regular immunization and health check ups, spreading awareness about personal hygiene education, encouraging the parents for securing child's future, via financial investment, especially girl child, along with imbibing moral values and educating them to voice out child abuse. The core remains Educational literacy.

COUNSELLING AND DOMESTIC VIOLENCE

Domestic violence has been making the women in the society completely run down because the male members have dominant feeling. The state administration cannot intervene so closely due to limitations. SUDHA is trying to set up a community services counselling centres to keep a close watch and tackle the issues amicably.

WOMEN EMPOWERMENT

Women empowerment is an integral part of the development. Even are to be given their due status in the society. Therefore building their image in the society and also taking care of their well being, education and training is understood by SUDHA and expecting the participation of each person to contribute their share in this work.

SKILL AND TRAINING

Skill and training are too essential for economic development and employment. As adequate eco system is not in existence to skill up the youth in semi urban and rural areas society wants to enter in the space and is considering to regularise and make systematic the provision for skill and training.

**Mitigating the inequality is everyone's duty.
Support us and make the human being equal in terms of their existence.**
